Letter to Ohn

This is to follow up our telephone conversation of this past Tuesday.

~~We have approval to file a divisional restrict the claims to the pretreatment step + proceed.~~

→ We prefer to ~~file~~ elect the claims to the pretreatment step + process, however the claims 31-37 should be included in this division, rather than the division set out by the examiner.

We may wish to pursue the remaining claims but would like to hold off on the divisional application as long as possible.

I am enclosing a copy of the issued US for your files.
